INTRODUCTION

Kascco Ltd specializes in Contract Mining, Civil construction, Drilling, Crushing and screening, projects (Bulk earth works) and Plant hire.

For over 14 years, Kascco Ltd has been offering its clients a series of potential solutions adapted to each of their sites and coping with stringent logistical constraints. All mining equipment maintenance is performed in-house to ensure continuous production under the safest working conditions.

Our team includes some of the most highly skilled and experienced professionals in the industry.

Kascco prides themselves in their ability to transport and hire quality construction and mining machinery to their clients as well as the execution of highly quality construction and mining projects.

Kascco has a dedicated and capable management team that is always able to consistently stage-gate all projects to meet the required Cost, quality, time and safety standards.

Kascco Limited has been in existence since 2005 and has grown from a micro equipment hiring contractor to one of the leading Mining, Drilling, roads and earthworks contractors in the construction and mining cluster domiciled in Zambia and DR – Congo.

VISION STATEMENT

- To be cost effective, reliable and efficient contractor group, with a national and international presence that will provide an excellent service to our customers and provide sustainable opportunity for our employees through training with a commitment to safety at all times.
- To perform for our customers, the highest level of quality construction and Mining services at fair and market competitive prices.
- To ensure the longevity of our company through repeat and referral business achieved by customer satisfaction in all areas including timeliness, attention to detail and service minded attitude.
- To maintain the highest level of professionalism, integrity, honest and fairness in our relationships with our suppliers, subcontractors, professional associates and customers.

Mining – Load and haul performance

Material Movement year 2017/2018

Quality Management

Quality policy statement

Kascco concentrates on providing its customers with quality products. To this end the group mobilizes its management skills and uses its resources in the most efficient and cost-effective manner to produce projects of the required standard and quality.

Quality control and using best construction practises are core activities of Kascco. In order to reinforce this philosophy, the company has become a member of the National Construction council (NCC) of Zambia.

Quality Control Objectives

- To deliver our client the standard of quality specified in the contract and to exceed these standards where possible.
- To create and maintain the culture of quality in the company.
- To ensure that all our employees are trained in quality assurance and that this training is ongoing at all levels.
- To meet all legal requirements in respect to quality.
- To provide the resource necessary to achieve the required level of quality.
- To ensure that quality control mechanisms are being effectively and efficiently applied at all times.
- To provide documentation evidence of all quality control measures.
- To ensure that all consultants, suppliers, subcontractors and others who are involved in our projects meet the required quality standards.
- To continually review and implement quality control and best practices procedures.
- To seek feedback from our clients and consultants as to the level of quality delivered.

Kascco acknowledges its duty to meet the client's requirements; in all respects and as such stands by a quality Assurance Management system in line with NCC.

We define quality as the totality of features and characteristics of a service that bear on its ability to satisfy a given need. It is simply put "conformance to requirements".

We understand the meanings and consequences of 'economic quality', 'conformity', 'compliance', quality management etc.

Quality Management

Our quality system sets out the organisation's structure, responsibilities, activities resources and events that together provide organized procedures and methods of implementation, to ensure the capability of the organisation to meet quality requirement.

Our quality assurance system embraces:

- ✓ Management Responsibility;
- ✓ Documentation & Data control;
- ✓ Purchasing;
- ✓ Process control;
- ✓ Inspection & Testing;
- ✓ Corrective & Preventative Action;
- ✓ Handling, storage, Packaging, Preservation and delivery; Records;
- ✓ Internal Audits;

Training, etc

Health and Safety

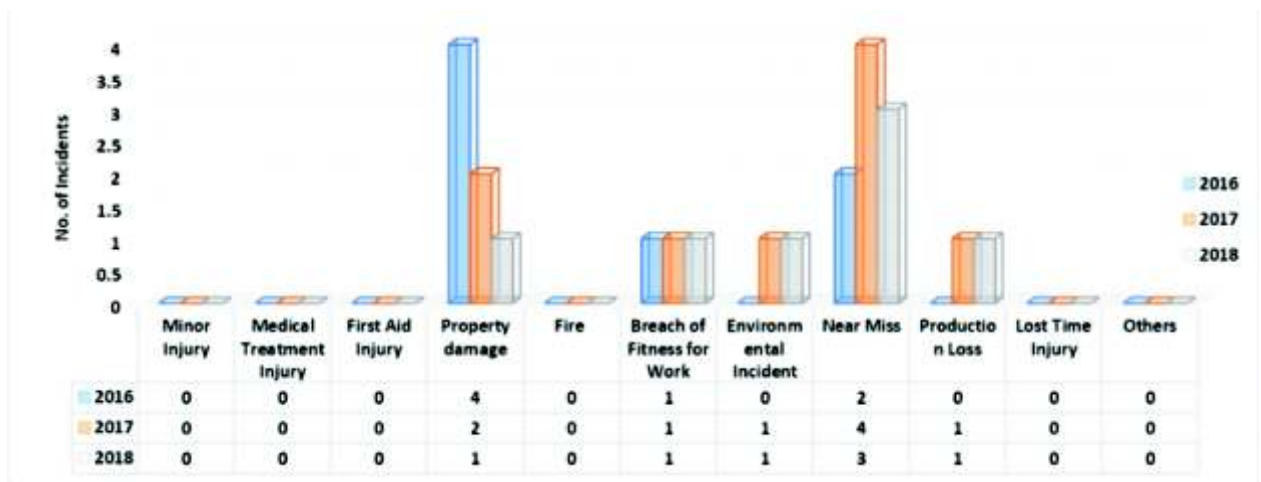

Kascco LTD aims at ensuring compliance to Government legislative requirements whilst setting a highest Occupational Health and Safety standard.

At Kascco Health, Safety and Environment (HSE) is everyone's business and priority. We believe compliance with statutory requirements represents only the minimum standard acceptable. Instead, Kascco is committed to our policy of “Zero incident”- to our people, our equipment and the environment we work in.

In our pursuit of the highest Occupational Health and Safety standards, we promote safety through training resources, systems and accurate record keeping.

Our standards and procedures collectively define the way work is to be planned, assigned and executed to achieve safe outcomes. We believe that incidents and injuries should not occur if all the requirements of our standards and procedures are always applied and followed.

Incident Statistic data – year 2016-2018

Portfolio Brochure

Kascco is the 'Home of Excellence Mining and Construction Services', standing behind over 200 pieces of earthmoving equipment, that are maintained internally and externally following OEM specification and recommendation to ensure full time availability and reliability.

At Kascco Ltd our people are the greatest asset. Personal development of every individual is encouraged within the company through continuous training and workshops. Our relationships with employees is based on reciprocated respect. Our personnel are fully trained, qualified and experienced to take any work load required.

We have done a sizeable amount of works including Mining, Earthworks and Equipment Hire for different clients to mention a few:

- Barrick Lumwana Mining Company
- Kalumbila Minerals Limited (FQML)
- Kansanshi Mining Plc
- Inyatsi
- WBHO
- Spenco
- Avantech

In conclusion, Kascco is a very dynamic construction company and have dreams of expanding our Civil Engineering barriers into Building Construction.
